RAILWORKS CORPORATION ANNOUNCES PROMOTIONS IN ITS TRACK GROUP

*Scott Brace Named President of RailWorks Track Systems,
William King Appointed Vice President of Major Projects Division*

New York, NY - (April 21, 2010) - RailWorks Corporation, a leading provider of track and transit systems construction and maintenance services throughout North America, announced today the promotion of Scott D. Brace to President of its subsidiary RailWorks Track Systems, Inc. William King has been promoted to Vice President of the Major Projects Division of RailWorks Track Systems.

Brace, formerly Executive Vice President of RailWorks Track Systems, has nearly 35 years track construction industry experience. He has provided leadership throughout the organization since RailWorks' founding and has been instrumental in more than doubling RailWorks Track Systems' revenue base and expanding its geographic and project scope. Brace, who is based in RailWorks' Lakeville, Minn. office, is an active participant in the track construction industry, including past service as Chairman of the National Railroad Construction and Maintenance Association.

In his new position, Brace will be responsible for more than a dozen branch operations and project offices in the United States that provide new track construction, maintenance and rehabilitation operations as well as production, bridge and transit construction and maintenance services.

RailWorks President and CEO Jeffrey M. Levy said, "Scott has been vital to the company's efforts to expand large project operations and capitalize on emerging market opportunities. He has implemented a range of safety, equipment utilization and related process improvements."

William King has been named Vice President of the Major Products Division for RailWorks Track Systems. He reports to Brace. King, who is based in RailWorks' office in Sewell, NJ, has more than 27 years of industry experience. Under King's direction, the Major Products Division has completed a number of highly visible projects, most recently Philadelphia's SEPTA Market Street rehabilitation projects and the automated people mover system at Washington Dulles International Airport.

Levy noted these promotions reflect RailWorks' development and growth in all sectors of the rail transportation market and the strength of its management team. "Scott and Bill's accomplishments are evidence of our ongoing efforts to build an exceptionally capable management team with an unrivaled record of industry leadership and expertise," said Levy.
